## EXPERIENCE

Cognifyz Technologies |( Summer 2025)  
Completed a hands-on internship focusing on HTML, CSS, and JavaScript.  
Learned front-end web development and created responsive web pages.  
Built a mini-project portfolio showcasing web design skills.  
Online Internship: C Programming & Python CodeAlpha ( Summer 2025)  
Gained practical exposure to C and Python programming concepts.  
Implemented small-scale projects during training period.  
Mini Project: Number Guessing Game (Python) Built during Online Internship |( July 2025)  
Developed a command-line based number guessing game using Python.  
Used loops, conditionals, and user input to implement game logic.  
Strengthened logic-building and problem-solving skills.

## PROJECTS

- Project A:** *Technologies Used: HTML, CSS*  
*Project: My Beautiful Village Website*  
Description:  
Designed a simple static website describing the uniqueness and culture of my village.  
Highlighted tourist attractions, traditions, local foods, and festivals.  
Focused on clean design and layout using only HTML and CSS.  
Practiced semantic HTML structure and mobile-responsive layout.  
**Project B:**  
Project: Dashboard Design (Static UI)  
Technologies Used: HTML, CSS  
Description:  
Created a dashboard UI layout using only HTML and CSS.  
Included sections like sidebar, header, cards, and tables with modern design.  
Helped in learning UI/UX design and frontend layout principles.

## SKILLS

- Programming Languages:** [c ,java ,python ]  
Also I have some basic knowladge about DSA
